

FEATURES

1. Semi-Open Impeller

- Adjustable wear plate increases wear life when pumpage contains heavy abrasive particles.
- 28% High Chrome 650+ Brinell hardness assures long life of impeller, wear plate and casing.

2. Slurry Mechanical Seal

- Dual seals of Silicon Carbide vs. Silicon Carbide running without the need for flush water.
- The motor is further protected by a labyrinth seal and upper lip seals.

3. Heavy-Duty Wash-Down Motor

- Inverter-duty TEFC, severe service, low voltage motor minimizes cost of operation.
